

China CNTC International Tendering Corporation was commissioned by Air China Limited and Shandong Airlines. to conduct an international open competitive tender for the following products and services. The tender was announced on the China International Tendering Network on October 23, 2024. This bidding adopts the traditional bidding method, and qualified bidders are now invited to participate in the bidding.

1. Bidding conditions

1.1 Project Overview: Air China Limited and Shandong Airlines. plan to jointly purchase 8 small electric pole aircraft tractors and 2 medium-sized electric pole aircraft tractors through international open bidding. Among them, Air China Limited plans to purchase 7 small electric pole aircraft tractors (delivered to Beijing Capital International Airport 1, Hangzhou Xiaoshan International Airport 1, Chengdu Tianfu International Airport 2, Chengdu Shuangliu International Airport 1, Chongqing Jiangbei International Airport 2) and 1 medium-sized electric pole aircraft tractor (delivered to Chongqing Jiangbei International Airport); Shandong Airlines. plans to purchase one small electric pole aircraft tractor (to be delivered to Qingdao Jiaodong International Airport) and one medium-sized electric pole aircraft tractor (to be delivered to Qingdao Jiaodong International Airport).

1.2 Funding in place or implementation of funding sources: Self owned funds, the source of funds has been confirmed .

1.3 Explanation that the project has met the bidding conditions: Already possessed.

2. Bidding content:

2.1 IFB NO.: 0618-244TC240W9TD

2.2 Project: 2024 Electric Pole Aircraft Tractor Procurement Project

2.3 Project implementation location: Beijing, Hangzhou, Chengdu, Chongqing, Qingdao

2.4 List of Bidding Products (Main Equipment):

| Serial No. | Name of Goods | Quantity | Main Specifications | remarks |
|------------|-----------------------------------|----------|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Small aircraft tractor (electric) | 8 | Maximum traction force $\geq 100\text{KN}$ | (1) Delivery locations: Beijing, Hangzhou, Chengdu, Chongqing, Qingdao (2) Delivery time: Within 6 months after the contract is signed, the goods shall be delivered to the project site |

| | | | | |
|---|------------------------------------------|---|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | | | for installation and commissioning, and meet the conditions for use. (3) The maximum bidding price for small aircraft tractor (electric type) is RMB 1000000.00 per vehicle. |
| 2 | Medium sized aircraft tractor (electric) | 2 | Maximum traction force $\geq 210\text{KN}$ | (1) Delivery location: Chongqing, Qingdao (2) Delivery time: Within 6 months after the contract is signed, the goods shall be delivered to the project site for installation and commissioning, and meet the conditions for use. (3) The maximum bidding price for medium-sized aircraft tractor (electric type) is RMB 2390000.00 per vehicle. |

3. Qualification Requirements For Bidder

3.1 Qualifications or achievements that bidders should possess:

(1) The bidder shall be the manufacturer of the goods provided or the bidder shall be the authorized agent authorized by the goods manufacturer to provide the goods in this bid.

(2) The goods provided should be mature and widely used qualified products and configurations. The tenderer does not accept equipment designed or configured separately for this procurement. The electric pole aircraft tractor must have equipment notification information and corresponding testing reports published on the website of the Civil Aviation Administration of China, and the notification must remain valid during the contract performance period. Bidders shall provide a copy of the Civil Aviation Administration's notice and corresponding configuration testing report for the electric pole aircraft tractor they have submitted in the bidding documents. (Note: If there are multiple Civil Aviation Administration testing reports for the electric pole aircraft tractor submitted by the supplier, the original testing report (type test report) and the later expansion report (partial project testing report) must be submitted together, and the relationship between each report must be explained. All provided report contents should be true and complete.)

(3) From January 1, 2019 to the bidding deadline (based on the date of contract signing or order placement), the historical sales performance of the small electric pole aircraft tractor (of the same product and model) with a cumulative sales quantity of not less than (including) 2 units; From January 1, 2019 to the bidding deadline (based on the date of contract signing or order

placement), the cumulative sales performance of the medium-sized electric aircraft tractor (of the same product and model) shall not be less than (including) 1 unit. (Note: The performance sold directly by the bidder or through an agent to the actual user unit is considered valid performance. The first party of the contract should be the actual user unit, and the performance of the first party of the contract as an agent is invalid performance.)

3.2 This project does not accept consortium bidding.

3.3 The bidder shall receive and purchase bidding documents

4. Acquisition of bidding documents

4.1 Starting time for procurement of bidding documents: October 23, 2024
